

# Dragonforce, Reasons To Live

Once again, I'm here alone, my secret life awaits me,  
Still a thousand miles away from the land of broken dreams

Night falls and the screen is shining, force deception behind the lines  
Hours wasted, aimlessly gone, time and time again

Try to understand, desperately lost with a dream in my hand,  
will you wait alone for me tonight?  
Hold me, save me

A star shines in all of us, we'll search for all our lives,  
One day we'll find a way, and a reason to survive  
Cry for the day to return, life no one can understand  
We all face our fears in the world; we all hold our place in the universe for eternity

Hide the lines, deceive myself, erase the past from my space,  
Images of loneliness sent far across the land

Once sure but my eyes are blinded, frantic charge for a place to hide  
Lost generations apart an ancient life returns

Kindness in her eyes, taken away by a man in disguise  
Won't you wait alone again tonight?  
Save me, save me

Star shines in all of us, we'll search for all our lives,  
One day we'll find the way, and the reason to survive  
Cry for the day to return, life no one can understand,  
We all face our fears in the world; we all hold our place in the universe for eternity

Try to understand, desperately lost with a dream in my hand,  
Will you wait alone for me tonight?  
Hold me, save me

A star shines in all of us, we'll search for all our lives,  
One day we'll find a way, and a reason to survive  
Cry for the day to return, life no one can understand

Our past lives return to us all, our memories will fly free forever,  
So far from the cries of the world for eternity
