

# Dragonforce, Through The Fire And Flames

On a cold winter morning in a time before the light  
In flames of death's eternal reign we ride towards the fight  
When the darkness has fallen down and the times are tough alright  
The sound of evil laughter falls around the world tonight

Fighting hard fighting on for the steel through the wastelands evermore  
The scattered souls will feel the hell bodies wasted on the shores  
On the blackest plains in hell's domain we watch them as they go  
In fire and pain now once again we know

So now we fly ever free, we're free before the thunderstorm  
On towards the wilderness our quest carries on  
Far beyond the sundown, far beyond the moonlight  
Deep inside our hearts and all our souls

So far away we wait for the day  
For the lives all so wasted and gone  
We feel the pain of a lifetime lost in a thousand days  
Through the fire and the flames we carry on

As the red day is dawning and the lightning cracks the sky  
They'll raise their hands to the heavens above with resentment to their lies[[#Notes|1]]  
Running back through the mid morning light there's a burning in my heart[[#Notes|2]]  
We're banished from a time in a fallen land to a life beyond the stars

In your darkest dreams see to believe our destiny this time  
And endlessly we'll all be free tonight

And on the wings of a dream so far beyond reality  
All alone in desperation now the time has come  
Lost inside you'll never find, lost within my own mind  
Day after day this misery must go on

So far away we wait for the day  
For the lives all so wasted and gone  
We feel the pain of a lifetime lost in a thousand days  
Through the fire and the flames we carry on

Now here we stand with their blood on our hands  
We fought so hard now can we understand  
I'll break the seal of this curse if I possibly can  
For freedom of every man

So far away we wait for the day  
For the lives all so wasted and gone  
We feel the pain of a lifetime lost in a thousand days  
Through the fire and the flames we carry on
