

# Dragonheart, Silent Sentinel

Take this mission  
With the valor of your soul  
Save yourself  
There's no way out

Silent sentinel, silent sentinel, silent sentinel, silent sentinel

The strike of iron  
Won't be heard down the earth  
Nothing here its look like  
Kordhen wait for the sacred Knight

Silent sentinel, silent sentinel, silent sentinel, silent sentinel

Follow the light  
Follow the bright  
Follow Knight Dragonheart  
And we stay side by side

The sacred steel awaits  
Let your heart leads you  
Let the sacred steel feel the fear  
By the hands of silent sentinel

Silent sentinel, silent sentinel, silent sentinel, silent sentinel

We are moving in circles  
We rise and we fall  
Beyond the sacred steel  
We are the sacred Knight

Silent sentinel, silent sentinel, silent sentinel, silent sentinel

Follow the light  
Follow the bright  
Follow Knight Dragonheart  
And we stay side by side

The sacred steel awaits  
Let your heart leads you  
Let the sacred steel feel the fear  
By the hands of silent sentinel
