

# Dragonland, As Madness Took Me

I never thought that i  
would see the truth behind the lie  
so now i've opened my eyes  
now i must find the reason  
find the reality  
i leave my sanity behind

madness took my mind

some day you'll see and you will believe me  
i'm the one who will set you free  
so open your mind and rid this world of insanity  
from the vanity

i stare out into nothing, thinking what we have done  
just don't understand why all this came to be  
what have we done to be  
to be rulers of all  
how it tears my mind apart

some day you'll see and you will believe me  
i'm the one who will set you free  
so open your mind and rid this world of insanity  
from the vanity

The bruises on my wrist  
are bleeding more and more  
i'm pulling harder trying to break free  
suddenly i realize  
i can't move  
thinking of the good times as i am falling asleep
