

Dragonland, Calm Before The Storm

(Musik: Morck, Magnusson, Holmild Lyrics: Heidgert)

We have journeyed for so long
Many seasons have passed by
Soon we'll there on the Ivory Plains
There we will fight for our lives
And to decide our own future
To protect the ones we hold so dear

But yet the worst part lies ahead
When we will fight for our world
Soon we'll be there on the Ivory plains
We shall grant no mercy
Nor show our fear
This time we'll win this war no matter the cost

The winter has passed and spring is upon us
To symbolize the dawn of the new time

This is just the calm before the storm
Begins Oh, for Dragonland we have to
Win Light give us strength The storm-
Draws near Brave men ride on

(Solo: O.M)
(Solo: N.M)

Now as we reach The boundary of the
Ivory plains We set camp and many
Drink their last ale Sharpening their
Swords Gathering their wits And
Waiting for the storm to begin

Soon we can live without fear, without
Darkness The glory of light will wash
Them away

This is just the calm before the storm
Begins Oh, for Dragonland we have to
Win Light give us strength The storm-
Draws near Brave men ride on
