

# Dragonland, Supernova

"A supernova is an extremely energetic stellar phenomenon. The stardust spewed forth from the ex  
&lt;/lyrics&gt;

== Lyrics ==

&lt;/lyrics&gt;

Do you believe in powers extreme?  
Bewildering majesty  
Can you perceive a vision supreme?  
Eruption serene

Grim destiny  
Infinity  
Radiant intensity  
Ethereal sphere  
Future severe  
Benevolent fear

Into its fortune bestowed  
Marvel and let it explode!  
To the inferno we go

Detonate the sun  
And soar into the supernova  
Now it has begun  
A solar mass undone

Say can you feel  
Destruction surreal  
Deadly calamity  
A final demise in godly disguise  
Now will arise

Head to the wisdom of old  
Unleash a glory untold  
To the inferno we go

Detonate the sun  
And soar into the supernova  
Now it has begun  
A solar mass undone

Head to its fortune bestowed  
Marvel and let it explode  
To the inferno we go

Detonate the sun  
And soar into the supernova!  
Now it has begun  
A solar mass undone
