

# Dream Theater, Vital Star

- Kevin Moore

Leaving the lives that have made us  
A wish in our eyes as we go  
tomorrow will speak for us  
wanting today  
Finding strength as we take hold  
When time comes to reach for a star  
How seemingly endless  
and dark space can be  
Look straight ahead through the blackness  
So brilliant the light you will see!  
We've already chosen our direction  
Standing our ground  
while the clouds take us high  
Some not as fortunate  
hearts still asleep  
Can we stir their blood?  
Can we teach them to fly?

Our elders have seen us grow strong  
A wish of the past  
has proven to be  
Us, Vital,  
We keep them alive  
As we remain loyal  
to our destiny  
[Chorus:]  
Vital Star  
A sanctum deep within our souls  
lights the way  
Reach within  
You're not alone  
This lifeblood flows inside us all  
Infant dreams need full attention  
half a heart beats half as fast  
half as fast  
[Chorus]
