## Drowners, LUV, HOLD ME DOWN

In a simple skirt you caused a ricochet Of courting boys that watch you walk away But I don't live my life like you do, no I don't live my life like you do

So, hold me down and never let me go A school boy grin it only goes to show, That I could never have such control, Every time you leave Every time you leave, I wanna go

Rip me up and bully me in jest About the afternoons that you've sleeping on my chest But I don't live my life like you do, No I don't live my life like you do

So, hold me down and never let me go A school boy grin it only goes to show, That I could never have such control, Every time you leave Every time you leave, I wanna go

So, hold me down and never let me go A school boy grin it only goes to show, That I could never have such control, Every time you leave Every time you leave, I wanna go
