

# Dua Lipa, Voodoo

It's-it's your voo  
It's-it's your voo

I can't get away  
Found a home in your heartbeat  
I keep coming back again  
There's a madness that surrounds me

And when you're a thousand miles away  
I'm holding on for you  
I get on my knees to pray  
Cause I've fallen under you

It's your voodoo  
It's your voodoo  
Is this what they call love  
Cause I can't get enough  
Must be voodoo

You're my heavy rain  
You drench me off of nothing  
For all you gotta say  
At least can you mean something

And when you're a thousand miles away  
What am I supposed to do  
It's strange cause your love stayed  
I've fallen under you

It's your voodoo  
It's your voodoo  
Is this what they call love  
Cause I can't get enough  
Must be voodoo

It's your voo  
Voodoo, voodoo  
Voodoo, voodoo  
It's your voo  
Voodoo, voo  
Voodoo, voodoo

Why won't you let me go  
I'm under your control  
Fighting to let you go  
And I can't get out  
Why won't you let me go  
I'm under your control  
Fighting to let you go  
And I can't get out

It's your voodoo  
It's your voodoo  
Is this what they call love  
Cause I can't get enough  
Must be voodoo

Voodoo, voodoo  
It's your voo  
Voodoo, voodoo  
Is this what they call love  
Voodoo, voodoo  
Must be voodoo  
Voodoo, voodoo
