## Ducky Boys, Alone Tonight

And when I call your name you wont be there And when I wake in pain you wont be there Out on the avenue I fell in love with you And all I'm falling into now is a bed of nails I don't really want to be alone tonight I want you by my side But I'll be alone tonight No matter what I dream it won't keep me san No matter what I say it wont make you stay I don't really want to be alone tonight I want you by my side But I'll be alone tonight And i'll recount all my mistakes And I recount the things I did to turn your heart away I don't really want to be alone tonight I want you by my side But I'll be alone tonight I don't really want to be alone tonight Do you really want to be alone tonight?
