

Duct Tape, May

Sorry if u burned them
sorry if u let it drown
but all i was doing
was bringing you down

i didn't mean to hurt
i thought you wanted this right
being happy just us
was always just alright

with me
if you cry with me
and fight with me
i thought u die with me and

useless fights that i thought up
whod of thought that we'd hold up
this long and hanging out every day
months go by and its already may

open up your eyes
and let them feel the burn
youve been hiding
and i think its time you'd learn
that i new you liked him
before the flight
people talk
but i guess thats alright

with me if you fight with me
and you cry with me
i thought you'd die with me and

useless fights that i thought up
whod of thought that we'd hold up
this long and hanging out every day
months go by and its already may

so now you need him
but u can't see him
and you still starve him
your looks will charm him

but now youve changed
and he's the same you
hung up the phone now
your alone too

useless fights that i thought up
whod of thought that we'd hold up
this long and hanging out every day
months go by and its already may
