

Duff McKagan, (fucked up) Beyond belief

"This is a warning"
You got democracy, debauchery,
and a communist regime
They tore, that wall down just to
keep people happy
But it goes back up again
The tax man cometh and he takes
all your money away
Tax bracket, what a racket
They spend it like two-bit thieves
The monster came up its ugly
head
And it's just enough to keep
Your children fed?
You stumble, you get up and then
you heave
Man, it's so fucked up beyond
belief
