

# Duff McKagan, Tenderness

blackened days  
we've lost our way  
so gather round  
these lies and find  
stormy clouds

a little tenderness is what we need  
o tenderness can't you feel it  
spread around  
a little tenderness is can't you feel us  
o tenderness won't you please  
please come on down

darkest days  
the deals we made  
on temple grounds  
that empty sound  
god's not around

a little tenderness is what we need  
o tenderness can't you feel it  
spread around  
a little tenderness is can't you feel us  
o tenderness won't you please  
please come on down

a little tenderness is what we need  
o tenderness can't you feel it  
spread around  
a little tenderness is can't you feel us  
o tenderness won't you please  
please come on down

these better days  
we gotta stay  
and gather round  
get off the ground  
and say out loud
