

Duff McKagan, Then And Now

When I first saw you baby, yeah you were gone,
So far gone

The scene was set for armageddon, and your
grip on me was strong

(Chorus)

If you saw me yesterday, you wouldn't recognize my face

If you saw me yesterday, yeah you might've ran away

Sister uptown, you're a metaphor for all lifes grief and pain

Brother downtown, such a devil, make a snake out of any man

(Chorus)

(bridge)

Don't feel like crawlin' out of my cage

I used to say,

Another lame song and dance about a thing

from my past,

I hope it's not boring you

In the end I lost a few friends

But I got up and I ran away

Drugs party in 526 is where I got my kicks

But where are they today?

Dead and gone, the damage is done, I got
nothin' else to say

(Chorus)
