

# Duit, Synapses (feat. Dawid Podsiadło)

Rollerblades  
You took my shade  
... cake  
Lemonade  
Burning sun  
There's nowhere to run, to run

I know I said it so many times  
But I'm moving on now  
And I'll just have to figure that out  
But other than that I'm fine

Can you call me just one last time?  
You don't have to say a word  
I just need to know you're alright  
And then, I'll leave you alone

You told me I've been [...] picking flowers on a sunny day  
But it's pointless  
When you are away  
You told me, I should never really be scared  
So nothing was gonna change  
I will take the danger away  
But you've become the danger instead  
I will make your dreams come true  
All I ever wanted was you

I said I'll stop, I know;  
I am letting go  
It's just shocking to say  
But for once it's not me

I know I said it so many times  
But I'm moving on now  
I'll just have to figure that out  
But other than that, I'm fine

Can you call me just one last time?  
You don't have to say a word  
I just need to know you're alright  
And then, I'll leave you alone

Can you call me just one last time?  
You don't have to say a word  
I just need to know you're alright

I just need to know you're alright
