

# Duran Duran, Drug

Take me every morning  
Take me every night  
Take me when you're feeling low  
Take me when you want to stay  
Up all night

Before you slip into the white  
There's something I want you to know  
In all your stretch of consciousness  
You've still got a long way to go  
Some make you spin,  
Some make you sweat,  
It's only here for you to choose  
Some like it hot,  
But I like it wet, so tell me...  
What have we got to lose now?

Take me every morning  
Take me every night  
Take me when you're feeling low  
Take me when you want to stay  
Up all night

(a hit, a hit)  
A hit to fit reality  
It's just a state of mind  
And you, and it, it's more than just  
And that's what you've got to find  
We'll make you spin,  
We'll make you sweat  
All you have to do is choose me  
And if you would try  
And alternative high  
Then tell me, what have we got to lose now?

Take me every morning  
Take me every night  
Take me when you're feeling low  
Take me when you want to stay  
Up all night

Take me every morning  
Take me every night  
Take me when you're feeling low  
Take me when you want to stay  
Up all night
