Duran Duran, Pop Trash Movie

Saw a close up of your pretty face Overnight sensation Smiling for cameras From all around the world If I rewind back to yesterday And stop the tape there No one knew who you were But now they're at your door

I'm living in a pop trash movie
We star together in every scene
We'll all be famous for just a few minutes
Part of a celluloid dream

Watching slow-mo going frame-by-frame Might have blurred my vision Your life went flashing by Where did it all go wrong?

I'm living in a pop trash movie
We star together in every scene
We'll all be famous for fifteen minutes
Part of a celluloid dream

I'll wait in the wings for you I'll read your lines to you But now the script is final you know, it's time to go So we'll have to say goodbye

I'm living in a pop trash movie
We star together in every scene
We'll all be famous for those fifteen minutes
Part of a celluloid dream
We star in every scene
And it's never quite what it seems

(Never)

I'm living in a pop trash movie I know we'll make it with that pop trash - yeah We'll all be famous for those fifteen minutes Part of a celluloid dream, yeah
