## Dying Wish, The Valley

The valley where I can feel the infinite Cold touch of time forever The valley which leans over me to defend And I lived there as a slave

She became my mother and father And the only one who really knows me And when I close my eyes forever She will known why I do it

The valley where the sky is far-away I sometimes leave for her on a path But flow is coming and sweeping away "don't run away" - whispers the wind

The valley only can hear my last words Among the flowers fed with loneliness

[Chorus:] The valley where in my own world I live alone

Now I say goodbye, i'm waited in the sky The valley will tell that she was the only with me

[Chorus:]
The valley where in my own world
I live alone

Nobody can see my smile Nobody can see my tears
