

# Earth And Fire, Weekend

Sunday and it's so hard to say goodbye  
I don't know what to do passing the days without you  
Friday night when I see you again  
You'll make a fool out of me  
I don't wanna be your lover for the weekend

Sometimes when I'm looking at your face  
There's something in your eyes that makes me realize  
We've got no chance if we're going on this way  
You mean such a lot to me  
I don't wanna be your lover for the weekend

Chorus:

Love in a woman's heart  
I wanna have the whole and not a part  
It's strange that this feeling grows more and more  
'Cause I've never loved someone like you before

Sunday and it's so hard to say goodbye  
I don't know what to do passing the days without you  
Friday night when I see you again  
You'll make a fool out of me  
I don't wanna be your lover for the weekend

Chorus (2x)

Sometimes when I'm looking at your face  
There's something in your eyes that makes me realize  
We've got no chance if we're going on this way  
You mean such a lot to me  
I don't wanna be your lover for the weekend

Chorus (3x)
