

Earth, Wind And Fire, Pride

Maurice White, Verdine White, Larry Dunn, Al McKay, Philip Bailey & Fred White

Mighty men have come and gone
but the pride lingers on
Heritage will claim every man
with desire to make a stand
Some say pride's for the strong
what's the use, holding on
We say pride's everyone who
wants to come, touch the sun

While you pout, is your world
in doubt, it's all about
Life won't let you out of the scheme
Just believe in your dreams
Pressing on self esteem

Now participate, time for love
to motivate
Energies to say, brighter you, brighter day

Set your mind in view,
of the real man in you
Time to check it out
Pride relieves all your doubt
