

Earth, Wind And Fire, Star

Maurice White, Eddie del Barrio & Allee Willis

In the sky, shines a star, spaces,
Near and far, calling out, who you are
And smiling in the night.

Star light, star bright beam across the
Sky -- falling, calling can you tell me why --
Star light, star bright mighty light to see.
Shining, smiling down on you and me --

Star hides from the rain, it turns
Against the pain, fooling many in the game
While smiling in the night --

I can feel the dark, take the night,
Apart, but then, the stars come out
And lift my heart --

Believing, there a star, for everyone
Makes it easier, to recall, that together
For the children of the world -- There
A star smiling for us all

Star, shining high, cultivating my desire
Graceful in the sky
And smiling in the night

Chorus out
