

# Earth, Wind & Fire, Turn On (The Beat Box)

Turn on  
Have you been thinking nothing ever changes  
And you could be making a difference tonight  
Why are you waiting - anticipating  
Can't find the feeling when you know it's right

Oh I just want to see you smile  
Forget about yesterday  
Nothing can stop you now  
So what are you waiting for

Turn on, turn on the beat box baby  
We're walking on the party line  
Crank it up and let the music  
Turn every night into a Saturday night

Whenever you're ready - we'll be rocking each day  
You're gonna get lucky - leaving it all behind  
Time's ticking away - it's another Saturday  
So it's time to bring out on the party line

Oh I just want to see you smile  
Forget about yesterday  
Nothing can stop you now  
So what are you waiting for

Turn on, turn on the beat box baby  
We're walking on the party line  
Crank it up and let the music  
Turn every night into a Saturday night

It's so bright  
I know your beat box baby  
Are you ready for a good time  
So come on move with the feeling  
And every night is a Saturday night

Turn on

Turn on, turn on the beat box baby  
We're walking on the party line  
Crank it up and let the music  
Turn every night into a Saturday night

It's so bright  
I know your beat box baby  
Are you ready for a good time  
So come on move with the feeling  
And every night is a Saturday night

Turn on

Turn on, turn on the beat box baby  
We're walking on the party line  
Crank it up and let the music  
Turn every night into a Saturday night

It's so bright  
I know your beat box baby  
Are you ready for a good time  
So come on move with the feeling  
And every night is a Saturday night

Beat box - beat box baby [Repeat]
