

EARTHGANG, Die Today

Tell me baby if I die today (Die today)
Would you come and kiss my cold face? (My cold face)
Would you run up in my bank account? (My bank account)
Would you go and give my heart away? (My heart away)
I need to know
I need to know right now
I need to know, I need to know
I need to know (Know), I need to know

Holdin' hands, is it really love or it's just a trance?
Butterflies trapped inside my stomach, make my body dance
Run the bag, trappin', work it out but life held up the plans
They fell from the same branch, do we stand a fuckin' chance?
Does your loyalty for me stretch as far as your pussy do?
Would you cross the galaxy to see me if I couldn't move?
Baby, what you do to me could put me inside the eulogies
But fuck it, I'll still hold your picky bucket 'til I D-I-E

Tell me baby if I die today (If I die today, die today)
Would you come and kiss my cold face? (Would you come and kiss my cold face? My cold face)
Would you run up in my bank account? (Would you run up in my bank account? My bank account)
Would you go and give my heart away? (My heart away)
I need to know
I need to know right now (I need to know)
I need to know (I need to know)
I need to know (Know), I need to know

Plot, plot, plottin' on my death, can't eradicate me
Fuck, fuck, fuckin' on my ex 'cause she validate me
They say the good die young, I'ma be the last remainder
Hate all you want, I can't stop, I'm a force of nature
Just got back in the country, blessing heart, wavin' at my neighbors
Victory in court, I thank God for the affidavit
Life shit so funny, push and pull, switch up, lose it, pace yourself to losin' back communication
Ain't shit new, it's ancient
I don't mix words, intentions
You know I meant it from the bottom of the left of my spiritual
It ain't spittin' so I'm serious
I'm laughin', sarcastic, they still don't get it
But I'm just a vessel, baby, I can't help I how I spill it
I wanna know what you gon' do when it's the bucket I'm kickin'
Bitch, I ain't nothin' like these niggas, we ain't juxtaposition
I'm the glitch, I'm the bug in your system, electrifyin' all your muscles and tendons, I need to know y

Tell me baby if I die today (If I die today, die today)
Would you come and kiss my cold face? (Would you come and kiss my cold face? My cold face)
Would you run up in my bank account? (Would you run up in my bank account? My bank account)
Would you go and give my heart away? (My heart away)
I need to know
I need to know right now (I need to know)
I need to know right now (I need to know)
I need to know right now, I need to know right now
I need to know, I need to know, I need to know
