Once upon a time cross the far and wide,
blue abyss the first people known to earth thrived,
Then one day a shipped dock with evil intentions that would change the course of the world and ch
Stuck over here like 400 years, stayed iced out through the pain and the tears.
Ice in my veins ice in my ears.
Bitch gimme brain I cannot deal.
Kids on the block stay getting killed
when will it stop when will it end I mean for real real real really for real real real.
grand daddy's grand daddy was poor, first nigga in my family with dough ooh ooohh.
I raise everybody up from the floo ooohh.
Flipping the generational curse Co Co.
Niggas can't fuck with me. yeah.
bitches cant fuck with me yeah.
What about the police come in my crib and shoot me up, life hard enough just thinking bout rent.
Coulda bought my freedom all the money I spent.
Ain't that some shit.....
I mean for real all this money we got and we still can't help Flint.
Don't get me wrong I still pull up to Lennox to floss on a bitch yeah.
But I hate seeing my niggas get shot up that shit don't make sense.
Got damn I could help you if you stopped tripping so much.
Baby girl I can't save you but I can sure lift you up.
Left cheek right cheek.
Make them clap and come together like so Icey
Still a LIL ratchet
still a lil boogie
still a LIL dicey.
Cousin in the navy,

waiting for somebody in the White House to save us shit ain't likely.

There goes the neighborhood
(Wow it's funny people really used to say that)
Now they coming back to take the hood
(Hmm...funny how things change)
Meanwhile I'm just tryna get my finances up

So I can buy my whole damn block
Been bumping Nipsey a whole damn lot
Tryna make shit shake
Theaster Gates
If they ask dont fake like you know what it's bout.
Seat at the table sound so amazing
I rather bring you to my cookout
Citronella tiki torches
Talkin niggas joining forces
Linking up the resources
Brother shining
Sister gorgeous
Tell the kids how we did it
Better books better course
Teachers gotta make a living
Test scores more important
How the system get rewarded
All of my niggas with heavy pockets
Don't be acting snobbish Cuz you already got it
Some of y'all niggas so woke it's ironic
You really be ignorant cuz of your knowledge
Look down on your brother cuz you went to college
Or you got the perfect collection of rocks
And stones and gems to soak up the moon
Say you open minded know it ain't true
And ion like preaching that ain't what I do
I usually observe and just start making moves
Fuck what you heard the option we choose
To hold what we got and build something new
America worst nightmare come true
Pray over this verse hope it break thru
Po up the liquor and mix the juice and
Crank this up at ya barbecue
