

Earthlings?, Disco Marching Kraft

hey, something, something's really wrong
a moment ago I was alone
hey, something, something's not right
open eyes, I don't know what's that light

and something, something's wrong
and something, something's gone
and something, something's wrong
and something, something's gone

dearly departed...disco marching kraft
dearly beloved...disco marching kraft

where have you gone? love someone.
I just don't know.
where have you gone? love someone.
I just don't know.

hey, can you hear me? what's gone wrong?
a moment ago I was walking
hey, can you see me hovering here above
watch my body, babe, and ease my bones

and something, something's wrong
and something, something's gone
and something, something's wrong
and something, something's gone

dearly departed...disco marching kraft
dearly beloved...disco marching kraft

where have you gone? love someone.
I just don't know.
where have you gone? love someone.
I just don't know.

dearly departed...disco marching kraft
dearly beloved...disco marching kraft

where have you gone? love someone.
I just don't know.
where have you gone? love someone.
I just don't know.
where have you gone? love someone.
I just don't know.
where have you gone? love someone.
I just don't know.
