

Earthlings?, Reaper (Don't Fear That Child)

(want some, get some)
(who's gonna get some?)

a surge of impatience
rose up in me
making good time
toward the scene
I'm engaging the flow
endlessly

reaper, don't fear this child no more
reaper, don't fear this child no more
reaper, you fear this child no more

i focused on the scene
jungle route to my right
between some large trees
outcroppings of rock (?)
Jungle route through the scene
seemed comparatively bare
one tree that way
very little plants

reaper, don't fear this child
reaper, don't fear this child no more
reaper, don't fear this child no more

i glanced back to right
i was convinced
nibbling(?) for food
no occupants
from the peak
i looked horrified

don't fear this child no more
reaper, don't fear this child no more
reaper, don't fear this child
pain don't run away

reaper, don't fear this child no more
reaper, don't fear this child no, no more
reaper, don't fear this child no more, no more

i stood and gazed at you
no more
no more
