

Echo Image, Understand

Sometimes when I look at you
I don't know what I can do
You are so hard to find
You are always on my mind

I look at you and see a light shining so bright
You sparkle like the sea at night

Understand, understand
Understand, understand

When I see you see you in the sun
My heart is going for a run
I want to take you to the sea
So it can be just you and me

I look at you and see a light shining so bright
You sparkle like the sea at night

Understand, understand
Understand, understand

Understand

I look at you and see a light shining so bright
You sparkle like the sea at night

Understand, understand
Understand, understand
