Echo Image, Understand

Sometimes when I look at you I don't know what I can do You are so hard to find You are always on my mind

I look at you and see a light shining so bright You sparkle like the sea at night

Understand, understand Understand, understand

When I see you see you in the sun My heart is going for a run I want to take you to the sea So it can be just you and me

I look at you and see a light shining so bright You sparkle like the sea at night

Understand, understand Understand, understand

Understand

I look at you and see a light shining so bright You sparkle like the sea at night

Understand, understand Understand, understand
