

Echosmith, Let's Love

I'm just a girl from the city
You came to me
Like Cavalry
Now all I want is
To hold you now

I've been saving my soul
For someone like you

Let's Love
While We're Young
So Let's Love
Before we've even begun
Oh Darling
We'll be fine
So Let's Love
While we're young

You were the girl
That came with the sunrise
Long brown hair
And emerald eyes

You were the one
That came with the sunrise
Dark brown hair
And emerald eyes

Now I can't think
Of a day without you
Now all I want is
To hold you now

I've been saving my soul
For someone like you

Let's Love
While We're Young
So Let's Love
Before we've even begun
Oh Darling
We'll be fine
So Let's Love
While we're young

Let's Love
While We're Young
So Let's Love
Before we've even begun
Oh Darling
We'll be fine
So Let's Love
While we're young
