anything she need
she can call me
don't worry about her
that's my seed
dawh that's all me

I really need all you to understand
that nobody's coming close
and I don't ever wanna run around
I spent my youth jumping in and out
but you know i fucking lve her now
like nobody ever could

and you know I stay tripping am I crazy, no
I'm sticking with my baby for sure
together or solo
it doesn't matter where we are, oh no, no
so if you hear about my lady just know
that she's the one to play with oh no
and I'll be standing so close
so you know that, hay

anything she need
she can call me
don't worry about her
that's my seed
dawh that's all me
just know if you cross her
you cross me
you cross me cross me cross me
if you if you

if you cross her

and nobody's coming close
and I think that you should know that
if you cross her

blowing air out
