

# Ed Sheeran, End of Youth

Utwór 'End of Youth' z albumu 'Subtract' od Ed Sheeran (premiera 5 maja 2023r.)

I've been depressed since you left, try to fill the hole with wine  
Stop the drugs when she came, cleaned my act overnight  
If you reach with no reply, see you when I see your man  
You can't talk to me through the phone if we don't a fucking line  
I try to grow but the past, it tears me down to side  
There's still the world out to process but don't take the same advice  
I remember what I sang, that the morning's filled with fear  
Can't get a handle of my grief, when I remember it turns to tears

It's been a long year and we're not even halfway there

Is this the end of your life? When pain starts taking over  
I just don't know if I can ever just let it go  
Everything's falling apart, our love is real, it never closes  
I guess it's all part of life, but I can't help but be alone  
We spend our youth with our losing hearts wide open  
And in the dark, it's in the next, the end of youth

I've been lost since the tears but the time's all alright  
On my own, slip and falls, I have been trying with my life  
Just a boy who can't stop feelings all coming in  
You were meant to be my friend and now it's a shame that you can't  
It's the age to create, gotta remember you  
No one knows what they want, just give you what I feel  
And I'm still feeling higher, all alone is always near  
When I'm down but I never see you, when I'm up you are up here

It's been a long year and we're not even halfway wait

Is this the end of your life? When pain starts taking over  
I just don't know if I can ever just let it go  
Everything's falling apart, our love is real, it never closes  
I guess it's all part of life, but I can't help but be alone  
We spend our youth with our losing hearts wide open  
And in the dark, it's in the next, the end of youth

Ooh, ooh, ooh  
Ooh, ooh, ooh  
Ooh, ooh, ooh  
Ooh, ooh, ooh

It's been a long year and we're not even halfway there

Is this the end of your life? When pain starts taking over  
I just don't know if I can ever just let it go  
Everything's falling apart, our love is real, it never closes
