

# Edenbridge, Live and Let Go

Here I stand  
Got out of hand  
The last straw  
Is what I saw  
Take me out  
When I curl up and dig  
It's scaring me  
Too blind to see

There's a time  
And there's a place  
Beyond the twists and turns  
The synergy of time and space  
So get the fire burn

Live and let go  
There's a light in the dark  
To endeavor free to fly  
In a never ending sky  
(Free to fly)  
When you feel you spiral down  
There's a turn at the end of all hope  
It is the everlasting change and the grow  
Live and let go

The fount of all the only game in town  
The twilight zone  
So unknown  
The world is your oyster  
When you chance your arm  
With might and man  
And some you can

In the blood of youth we hardly  
Ever come up dry  
Brave the storm  
To make ends meet  
More than meets the eye

Live and let go  
There's a light in the dark  
To endeavor free to fly  
In a never ending sky  
(Free to fly)  
When you feel you spiral down  
There's a turn at the end of all hope  
It is the everlasting change and the grow  
Live and let go

Live and let go  
So there's the one and only light  
Fly free to the sky  
So come on fly  
When you spiral down  
It is the everlasting change and the grow  
Live and let go  
Live
