

Edge Of Sanity, Forever Together Forever

[1.]

Leaving the grind the mirror behind
loosing the ringth then and there
Whisper it was someone else and not me
How I wish I could

[2.]

I keep the secret within deep inside
Grasping without reaching anything
I am alone here to seek for the truth
and your dead star is burning be weak

[3.]

I am a ghost
Dwelling inside myself

[4.]

Please forgive me if you're able
I do not know what I do
The inner autumn shrouds everything
The eternal rain that drown my soul

[5.]

I am a ghost
Dwelling inside myself
I can not bare this anymore
As I am you

[C.]

Together forever
In a masquerade of life and death
Forever together
The vision reached me from a dream
Together forever
Everlasting scars, soul torture
Forever together forever

[6.]

Impossible to leave this void
Unwilling to reveal the true face
Although I reckon this path is the only
And is it true that I can't resist

[7.]

The soil has turned into stone
As I turn around and face myself
So close to the end
Unable to hear
The synchronized heartbeats of my dearest

[Repeat C.]

[8.]

The moon didn't shine that night
Clouds gave way for the blackest sky
The spoken words translated into silence
and noone was to blame but me

[Repeat 1.]

[Repeat C.]

[Repeat 3.]
