

# Edie Brickell, Beat The Time

I notice me-I notice you  
I see alot of things that neither of us do  
I notice me-I notice you too  
And there are simple things that we don't even try anymore

Theres a way out of this  
Beat the time  
and everytime/ I turn around  
We got some clever way to put each other down  
and everytime I turn away  
I can't decide if I should go or should I stay  
with you

Theres a way outa this  
Beat the time  
We can't leave these problems behind  
So close the door and open your mind
