

# Editors, Kiss

How do I look tonight?  
Lit by mobile phone light  
It seems the other night  
Feeling my chest gets tight  
We could do anything  
Be brave and don't let go  
If I could only see  
And it's so much you know

One kiss pulls me to the light  
One kiss pulls me to the light

How do I feel tonight?  
Light up what's lost inside  
So we'll pass the time  
In who I can't confide  
We could do anything  
Oh, when I'm feeling low  
If I could only see  
And it's so much you know

One kiss pulls me to the light  
One kiss pulls me to the light  
One kiss steals me from my life  
One kiss pulls me to the light, oh

One kiss  
One kiss

One kiss pulls me to the light  
One kiss steals me from my life  
One kiss pulls me to the light  
One kiss pulls me to the light

I wish you knew the way I feel  
Because the way I feel is holding me back inside  
I wish you knew the way I feel  
Because the way I feel just can't be this right  
I wish you knew the way I feel  
Because the way I feel is holding me back inside  
I wish you knew the way I feel  
Because the way I feel just can't be this right  
I wish you knew the way I feel  
Because the way I feel is holding me back inside  
I wish you knew the way I feel  
Because the way I feel just can't be this right  
I wish you knew the way I feel  
Because the way I feel is holding me back inside  
I wish you knew the way I feel  
Because the way I feel just can't be this right
