

# Edna's Goldfish, Everyone I Know Is From Linder

Summer of 93  
What did you want from me?  
I'll take you out  
To the show  
You get to meet everyone I know

What comes next I'll keep you guessing  
Come to see the life that you've been missing  
Everyone I know and  
Everything I see  
Everywhere I've been  
It means so much you meant so much to me

They've made jokes at my expense  
I'm my own worst defense  
Another night of being lost  
I'll see you at any cost

What comes next I'll keep you guessing  
Come to see the life that you've been missing  
Everyone I know and  
Everything I see  
Everywhere I've been  
It means so much you meant so much to me

Summer of 95  
I still don't feel like I'm alive  
Sometimes I can feel so drained  
But my friends are here I can't complain  
I've underestimated again  
The power of the words of all my friends

Everyone I know and  
Everything I see  
Everywhere I've been  
It means so much you meant so much to me

What comes next I'll keep you guessing  
Come to see the life that you've been missing  
Everyone I know and  
Everything I see  
Everywhere I've been  
It means so much you meant so much to me

Everyone I know and  
Everything I see  
Everywhere I've been  
It means so much you meant so much to me
