

Edna's Goldfish, Everyone I Know Is From Linden

Summer of 93
What did you want from me?
I'll take you out
To the show
You get to meet everyone I know

What comes next I'll keep you guessing
Come to see the life that you've been missing
Everyone I know and
Everything I see
Everywhere I've been
It means so much you meant so much to me

They've made jokes at my expense
I'm my own worst defense
Another night of being lost
I'll see you at any cost

What comes next I'll keep you guessing
Come to see the life that you've been missing
Everyone I know and
Everything I see
Everywhere I've been
It means so much you meant so much to me

Summer of 95
I still don't feel like I'm alive
Sometimes I can feel so drained
But my friends are here I can't complain
I've underestimated again
The power of the words of all my friends

Everyone I know and
Everything I see
Everywhere I've been
It means so much you meant so much to me

What comes next I'll keep you guessing
Come to see the life that you've been missing
Everyone I know and
Everything I see
Everywhere I've been
It means so much you meant so much to me

Everyone I know and
Everything I see
Everywhere I've been
It means so much you meant so much to me
