

Edyta Górniak, Another Love Song

some things are right
some things are just wrong
new year resolution
never sing another song

but you know what they say
and it's happened to me today
best made plans go down the drain
here comes another love song

if you take a little bit of me and you
just drop it in the pan and make a love stew
bring it up to the boil and keep the heat up
it's a gas and I'm loving everything you do

this time it's right
this time it ain't wrong
what you do to me
had to wait for so long

but you know what they say
and it happened to me today
best made plans go down the drain
here comes another love song
