

# Edyta Górniak, As If

Uh, uh, uh...

You, you've got a lot of nerve  
I guess you haven't heard  
I'm doin' fine out here on my own  
You, you think that you can come  
Around here for some fun  
But boy you've got a lot to learn

Don't shake your head from side to side  
Saying that you've changed enough now  
That you see the light  
Cuz you just say what you say  
And want your way  
And it's that game that you play  
It's a little late

As if  
I'm ever gonna take you back  
As if  
It's ever gonna come to that  
So see you 'round, wave goodbye  
Be a bird, pass me by  
As if  
I'm gonna let you break my heart again  
As if I'm gonna let your love back in my life  
Not tonight, get a grip  
Baby as if

Uh-huh, uh-huh... yeah

You seem to think that I  
Ain't got no sense of pride  
Well boy you got a weird perception  
Oh, of what it is to love  
And I am sure because  
You got a look of desperation

Don't shake your head from left to right  
Saying that you will 'cos you  
Won't ever see the light  
And you just say what you say  
And want your way  
And it's that game that you play  
It's a little late

As if  
I'm ever gonna take you back  
As if  
It's ever gonna come to that  
So turn around, wave goodbye  
Be a bird, pass me by  
As if  
I'm gonna let you break my heart again  
As if I'm gonna let your love back in my life  
Not tonight, catch my drift  
Baby as if

You gotta go, you gotta go bye bye  
I, I got places to go  
With people you don't know  
We're gonna dance all nice and slow

Don't shake your head from side to side

Saying that you've changed  
And now you see the light  
Cause you just want what you want  
Some lucky charm  
And it's that game that you play  
So I'm moving on

As if  
I'm ever gonna take you back  
As if  
It's ever gonna come to that  
So be a dear, disappear  
Maybe I'm not being clear  
As if  
I'm gonna let you break my heart again  
As if I'm gonna let your love back in my life  
Not tonight, catch my drift  
Baby as if

No, no, no  
As If  
I'm gonna let you break my heart again  
As if  
I'm ever gonna take you back  
As if  
It's ever gonna come to that  
Turn around, wave goodbye  
Be a bird pass me by  
As if  
I'm gonna let you break my heart again  
As if I'm gonna let your love back in my life  
Not tonight, get a grip  
Baby as if
