

# Edyta Górniak, SENS-IS

Now you think it's over, over  
But we are getting closer, closer

This is my home  
And everywhere you go  
I'm on my way  
To share my dreams with you  
Come here again  
My shoulder gets colder  
The world may change  
But i will stay the same

And now you think it's over over  
But we are getting closer closer  
Don't be scared and think it's over over  
We are getting colser closer  
Can't you feel it

This is my life  
I carry you inside  
I understand  
The pain of a broken heart  
No need to rush  
I 'll wait for you right here  
I 'll you guide  
My home is where you are
