

# Elan, Shy

If you're going into the city  
Can I follow behind  
And if you think it's all so pretty  
I might just lose my mind

'Cause it's been raining all the time  
Yeah, it's been raining all the time  
And I might not know how to find  
My way back home

And if you're feeling sorta' weary  
Let me change your troubled mind  
And if you need me to be crazy  
I'll only have to be kind

'Cause it's been raining all the time  
And it's been raining all the time  
And I might not know how to find  
My way back home

And it's one tear tonight  
One tomorrow  
And you leave me tonight  
You're back tomorrow

If you're going into the city  
Can I follow behind  
And if you're leaving in the morning  
Can you take my worried mind

'Cause it's been raining all the time  
And it's been raining all the time  
And I might not know how to find  
My way back home

It's been raining all the time  
It's been raining all the time  
And I might not know how to find  
My way back home
