

# Eldritch, Inside You

There's barely no way to cure my bad disease  
But maybe something could fix this wrong mind  
With no one by my side I feel like a castaway  
One day you came walking right straight, towards me  
And when I saw your face, I said "Hey,  
Where are you from? Where were you yesterday?...?  
I 'M, I'M FALLING INSIDE YOU  
YOU  
HOW COULD IT HAPPEN?  
I got struck by a lightning from above  
Every time I try to focus on you, I get a shock that makes me blind  
There is no way out, there's no sense of shame  
I am now falling in love and my heart is the one to blame  
And when I saw your face, I said "Hey,  
Where are you from? Where were you yesterday?...?  
I 'M, I'M FALLING INSIDE YOU  
YOU  
HOW COULD IT HAPPEN?
