

Electrosy, Angel (In Here We Fall)

Sometimes I cry, your world I left behind
Sometimes I see you laying next to me
I wanna get high, sometimes I don't know why
I thought I was free, but all I can do is sit and dream

Oh my angel, you're made in England oh so well
You miss me she said, and it's true
There's no one else only you

I sit all alone, and wish somehow you're not gone
So now I believe that no one will ever set me free

Oh my angel, you're made in England oh so well
You miss me she said, and it's true
There's no one else only you

Oh my angel, you're made in England oh so well
You miss me she said, and it's true
Please believe me, oh I do

Oh my angel, you're made in England oh so well
You miss me she said, and it's true
There's no one else only you
