

# Electrosy, Victoria

When I die, I don't want anyone to know  
that I fell in love with you  
I was nine and you were ten, it was true love way back then  
from the moment I set eyes on you

Oh Victoria, where are you now  
If I found you I would cherish you  
Love you and replenish you  
Now I'm down where the hell are you  
Oh Victoria

Don't look back, I'm getting older every day  
and I'm sure you must be too  
ever since I've been a man, I get hurt and I get sad  
Then I dream and I get curious

Oh Victoria, where are you now  
If I found you I would cherish you

Love you and replenish you  
now I'm down where the hell are you  
Oh Victoria

Night and day, you are the same for me  
and your always on my mind  
Anyway, you're just a game to me  
But your always on my mind

Oh Victoria, where are you now  
Oh Victoria, where are you now  
If I found you I would cherish you  
love you and replenish you  
now I'm down where the hell are you  
Oh Victoria

cause I feel down
