

# Eleine, Ava Of Death

We will not forgive  
Nor will we forget  
The willful deceit that spread

Your future is dark  
Soon filled with regret

The plan was to bury us where we stand  
To suffocate at last  
But we will rise to claim this land

Hear our voice  
Ava of death  
You will not forget  
This moment in death  
Here we stand against the gods  
Ava of death  
By your blood you'll drown  
Try and strike us down  
You will learn to fear us all  
Ava of death

Our voice travels far beyond this land  
We're an army of the damned  
Bearing the mark of shackled hands

Fear will trap your soul  
Darkness will unfold

Hear our voice  
Ava of death  
You will not forget  
This moment in death  
Here we stand against the gods  
Ava of death  
By your blood you'll drown  
Try and strike us down  
You will learn to fear us all  
Ava of death

You will not forget  
This moment in death  
Here we stand against the gods  
Ava of death  
By your blood you'll drown  
Try and strike us down  
You will learn to fear us all

Ava of death  
You will not forget  
This moment in death  
Here we stand against the gods  
Ava of death  
By your blood you'll drown  
Try and strike us down  
You will learn to fear us all  
Ava of death
