

# Elemeno P, Big Band Nirvana

(Thank you very much ladies and gentlemen for coming out this evening  
we are of course Elemeno P  
with our good friends The Roach Box Big Band  
and the arrangements by Mr. Godfree, The Groove)

I like Nirvana  
It doesn't mean I'll shoot myself, shoot myself  
Live with your momma  
It doesn't mean you need her help  
Need her

I got my seven favourite records and I play them on my stereo  
Did I ever mention you'd look wicked in my video  
Situation vacant ever since I let you get away  
Thank you for your crap advice I didn't need it anyway  
Hey

I like Nirvana  
It doesn't mean I'll shoot myself, shoot myself  
I feel mistreated  
Doesn't mean I rate myself  
Hate myself

I got my seven favourite records and I play them on my stereo  
Did I ever mention you'd look wicked in my video  
Situation vacant ever since I let you get away  
Thank you for your crap advice I didn't need it anyway

More (more)  
Wonder what's in store (store)  
Heard it all before (fore)  
Stayed up once again till four for you (you)  
What ya gonna choose (choose)  
Either way you lose (lose)  
Losing was the least of it told you(you)

The harder I pursue (you)  
The less I seemed to find (find)  
Poisoned by you lemon rind find me  
Wiser than before, on my video
