## Elen Levon, Kingdom

Oh, take back the kingdom Oh, take back the kingdom

These songs are long overdue The songs that I sing just for you Your vacation, my destination You're my favorite radio station

So don't turn it down until you give it a try
If loving is a crime then give me 50 to life
It ain't nothing, we've got nothing to hide
I wanna be with you tonight, I wanna be with you tonight

So come by as you are, don't fight the feeling Can't get between us no matter what They'll never tear us apart, we're gonna beat them We'll kick the door down and take back the kingdom

Oh, take back the kingdom Oh, take back the kingdom

I left the sun in my rear-view And in the dark I found truth I'm gonna face it with no hesitation A love story made for two

So don't turn it down until you give it a try
If loving is a crime then give me 50 to life
It ain't nothing, we've got nothing to hide
I wanna be with you tonight, I wanna be with you tonight

So come by as you are, don't fight the feeling Can't get between us no matter what They'll never tear us apart, we're gonna beat them We'll kick the door down and take back the kingdom

Oh, take back the kingdom Oh, take back the kingdom /2x

Every step that we take, yeah, you can hear us We'll be storming the gates before the end of the night Might go saving the world 'cause we are heroes So all my heroes

Come by as you are, don't fight the feeling Can't get between us no matter what They'll never tear us apart, we're gonna beat them We'll kick the door down and take back the kingdom

Come by as you are, don't fight the feeling Can't get between us no matter what They'll never tear us apart, we're gonna beat them We'll kick the door down and take back the kingdom

Oh, take back the kingdom Oh, take back the kingdom /2x
