

Elena, EVERYBODY KNOWS (piosenka na Euro

i think it's time
make up your mind
oooh oooh
everybody knows everybody knows
that you want me
every week and so
i've been waiting all night alone
a silly message baby let's just call

anywhere you'll go tonight, tonight
baby please don't lose your mind
voices in my head all night, all night

everybody knows, everybody knows
everybody knows everybody knows
everybody knows everybody knows

there's a flame in us that tends to burn
let's just seal it with a nice „hello”
please just do it don't restrain your thoughts
anywhere you'll go tonight, tonight
baby please don't lose your mind
voices in my head all night, all night

everybody knows, everybody knows
everybody knows, everybody knows
everybody knows
