Ella Henderson, Hard Work

No I'm not talking from experience
But I think I've found maleficent
And in the end of the day you give me hard work
But you're good for me
I know you seem to make my body ache
It's a feeling I appreciate
Which makes it easier when you give me hard work
But you're good for me

This time I know I won't be proved wrong
This time to win you gotta lose some
Sometimes I just wanna give you up right away
But then you go and brighten up my day

I know I'm not wasting my time
For you to be the reason I cry
And no I'm not gonna lie
You're hard work
But you're good for me
And you're the one who's by my side
When I'm going out of my mind
But 99% of the time you're hard work
But you're good for me

And when I'm losing all my energy
You're like my only working remedy
And when I struggle to breathe it's cause you're hard work
But you're good for me
And when I start to feel I've had enough
And my head is feeling kind of wrong
And then I'm thinking it's tough
When you're hard work
But you're good for me
This high is a feeling that I'm fixed on
I know it was worth it in the long run
Cause somehow everything just fell into place
And you can tell by the smile on my face

I know I'm not wasting my time
For you to be the reason I cry
And no I'm not gonna lie
You're hard work
But you're good for me
And you're the one who's by my side
When I'm going out of my mind
But 99% of the time you're hard work
But you're good for me

Hmm, hard work
Hmm, hard work
Hmm, you're hard work
But you're good for me
Hmm, hard work
Hmm, hard work
Hmm, you're hard work
But you're good for me

But I'm not running away, no
A little bit of light is all it takes

I know I'm not wasting my time
For you to be the reason I cry
And no I'm not gonna lie
You're hard work

But you're good for me
And you're the one who'd be by my side
When I'm going out of my mind
But 99% of the time you're hard work
But you're good for me

Hmm, hard work
Hmm, hard work
Hmm, you're hard work
But you're good for me
Hmm, hard work
Hmm, hard work
Hmm, you're hard work
But you're good for me

But you're good for me
