Elley Duhé, PIECES

You wanna dose of that emotion Say that's the only thing you need I let you taste it for a moment And now you want some more uh me

Gotta spread that out As the lights go down Takin everything I'm giving That's enough right now

You want all my love Want it all once But is it too much

I'm gonna make you cry now, baby I'm gonna make you die You want the whole damn pie, now baby but you've only had one slice I only give you Pieces Pieces Pieces of me

I know I can be a handful I go dancing in the dark I wanna see what you can handle when you touch my broken heart

You want all my love Want it all once But is it too much

I'm gonna make you cry now, baby I'm gonna make you die You want the whole damn pie, now baby but you've only had one slice I only give you Pieces Pieces Pieces of me

give my love until nothing left the night is young and I ain't done yet

I'm gonna make you cry now, baby I'm gonna make you die You want the whole damn pie, now baby but you've only had one slice I only give you Pieces Pieces Pieces of me
